

56 BUSES FITTED WITH A TP5800 TICKETING MACHINE 8 DEPOTS

Automatic Fare Collection in Mthatha, Eastern Cape, South Africa

KEY FACTS

- Department of Transport compliant reporting
- VixView customised management reports for improved operational efficiency
- The currently cash-only operation is smart card ready

AB350 Ltd runs 56 buses with TP 5800 automatic fare collection machines in the rural Eastern Cape. Depots are located in Butterworth, Queenstown and Mbizana serving each of these areas. The upgrade to TP 5800 ticketing and fare collection for their on board cash sales has allowed AB350 Ltd to harness the power of the VixView business intelligence reporting functionality. This enables the operator to drive their business with innovative decision making. Data is communicated between the front office, depot and back office and is accessible from any internet connected smart device.

This business discovery platform delivers true self-service business intelligence with state-of-the-art graphic data dashboards that transforms the way AB 350 effectively control and manage their operation.
